

AIRPORTS & TRANSPORTATION HUBS

Watchspire AI is the next evolution in smart surveillance — combining real-time video intelligence, facial/object recognition, and autonomous threat detection into one powerful platform. Designed for smart cities, enterprises, and critical infrastructure, Watchspire AI enables security teams to move from reactive monitoring to proactive defense.

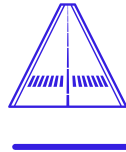

USE CASES

Abandoned Object Detection

Identifies unattended baggage in terminals and triggers security alerts.

Runway & Tarmac Safety

Detects unauthorized vehicles, animals, or foreign objects on runways.

Accident Detection

Identifies falls, medical emergencies, or collisions in terminals and transport areas.

Cleaning as per Schedule

Ensures restrooms, lounges, and high-traffic areas are cleaned as per compliance standards.

Crowd Management & Queue Monitoring

Tracks passenger queues at check-in, security, and boarding gates to optimize staffing.

ANPR (Automatic Number Plate Recognition)

Monitors entry/exit of vehicles in airport parking and restricted zones.

IMPACT

Strengthened Airport Security

Improved Passenger Experience

Regulatory Compliance With Safety Standards
