

WATCHSPIRE AI

DEFENCE & SAFETY

Watchspire AI is the next evolution in smart surveillance — combining real-time video intelligence, facial/object recognition, and autonomous threat detection into one powerful platform. Designed for smart cities, enterprises, and critical infrastructure, Watchspire AI enables security teams to move from reactive monitoring to proactive defense.

USE CASES

Perimeter Intrusion Detection

Detects unauthorized access to military bases and sensitive installations.

Vehicle & Personnel Monitoring

Tracks incoming/outgoing vehicles and troop movements.

Abandoned Object Detection

Alerts for unattended items in high-security areas.

Accident Detection

Identifies incidents during training exercises or field operations.

Drone/Low-Altitude Object Detection

Enhances surveillance against aerial threats (if integrated with specialized cameras).

Connectivity Bot

Ensures monitoring systems remain online even in remote or rugged environments.

IMPACT

Stronger Border And Facility Security

Faster Response To Potential Threats

Reliable Surveillance For Mission-Critical Operations
