

HEALTHCARE PROTECTED WITH WATCHSPIRE AI

Healthcare facilities demand precision, safety, and reliability. With Watchspire AI, hospitals and clinics can create a secure, efficient, and patient-friendly environment powered by real-time intelligence.

Safer Patients. Stronger Care. Smarter Hospitals.

WHAT WE DELIVER

Fall & Accident Detection

Instantly detect patient falls or accidents for faster emergency response.

Queue & Bed Occupancy Tracking

Manage patient flow, reduce wait times, and optimize bed usage.

Hygiene Compliance

Ensure cleaning schedules are followed in wards, restrooms, and ICUs.

Restricted Zone Monitoring

Secure medicine stores, ICUs, and labs against unauthorized access.

Abandoned Object Alerts

Identify unattended items in sensitive hospital areas.

WHY IT MATTERS

- Safer patients, reduced risks
- Stronger compliance and infection control
- Smoother hospital operations with fewer delays
