

Traffic is the lifeline of any city. With Watchspire AI, governments and transport authorities can keep roads safer, reduce congestion, and respond faster to incidents.

Safer Roads. Smarter Cities. Smoother Commutes.

## WHAT WE DELIVER

### Speed & Traffic Flow Monitoring

Detect average speed, occupancy, and congestion in real time.

### Accident Detection & Alerts

Instantly notify responders to reduce casualties.

### Animal Detection on Highways

Prevent accidents by spotting unexpected crossings.

### Roadside Hazard Detection

Identify abandoned vehicles or debris for quicker clearance.

### Smart Queue & Signal Management

Improve traffic light efficiency with AI insights.

## WHY IT MATTERS

- Safer highways and urban roads
- Reduced congestion and delays
- Smarter, data-driven city planning
