RETAIL & MALLS

Watchspire AI is the next evolution in smart surveillance — combining real-time video intelligence, facial/object recognition, and autonomous threat detection into one powerful platform. Designed for smart cities, enterprises, and critical infrastructure, Watchspire AI enables security teams to move from reactive monitoring to proactive defense.

USE CASES

Queue Monitoring
Reduces checkout waiting times by alerting when lines are too long.

Theft & Suspicious Behavior Detection
Identifies shoplifting, abandoned trolleys, or unusual movement in restricted zones.

Carton/Box Detection
Ensures proper inventory management in back storage and warehouse areas.

Cleaning as per Schedule
Maintains hygiene standards in restrooms and food court areas.

Customer Footfall Counting & Classification
Tracks visitor numbers, demographics, and movement patterns to optimize store layout and staffing.

IMPACT

Improved Customer Experience

Enhanced Loss Prevention

Data-Driven Staffing And Layout Decisions
